This estimate does not include costs for warehousing and stock rotation.

Total Cost = \$16,704,115			Total Pallets = 1257		

Part B: Procure a vendor for the development of a supply chain plan and long-term strategy for acquiring personal protective equipment.

SCEMD estimates the need for a 50,000 - 100,000 square foot warehouse. SCEMD is developing a RFP to secure vendor support services for the development of a stockpile plan/strategy.

- A warehouse needs to be climate controlled with portions refrigerated
- A warehouse will need additional staffing to manage/rotate stock with large users
- SCEMD warehouse in Winnsboro is insufficient for long-term PPE storage
- SCEMD warehouse in Winnsboro is not large enough for both PPE storage and emergency commodity storage
- Current estimates range from \$10M - \$22M for warehouse purchase or lease, vendor managed services and transportation/delivery services.
